

Stormwater Project Overview from Planning to NOI

Sponsored by the Stormwater Coalition of Tompkins
County

When: February 17, 2016 9 am – 3pm

Where: Dryden Fire Department, 26 North St Dryden, NY 13053

To register, please contact: Angel Hinickle at (607) 257-2340 or
angelhinickle@tcswcd.org

Fee: Free for coalition members, \$100 for all others (lunch and break snacks included)

** This class will guide participants through the many steps of site planning, design, evaluation and reporting necessary for obtaining NYSDEC stormwater permit coverage in New York. The class will begin with an overview of updates/changes to the NYS Construction Permit and NYS Stormwater Management Design Manual. We'll then work with a specific site beginning with the evaluation of pre-developed conditions and project objectives. Site planning, stormwater practice selection and design will follow. Computations for WQv, CPv, OBv, ExSv, and RRV will then be completed. 5 PDHs will be awarded for completion of this course.*
