

## Stormwater Coalition of Tompkins County

### May 9, 2012 Meeting Minutes

Attendees: Angel Hinickle, Creig Hebdon, Barry Goodrich, Ryan Sherry, Jeff Overstrom, Ellen Hahn, Linda Aarismaa

#### Joint Stormwater Annual Report

Angel discussed the status of the 2012 Joint Stormwater Annual Report. All municipalities were reminded that the MCC form must be filled in and signed by the authorized municipal official and returned to her for mailing to DEC. Municipalities were asked to post the draft annual report and information about the upcoming public meeting to their MS4's website.

Coalition members were asked if they would still like to proceed with quarterly reporting and all present representative agreed to do so.

#### Outfalls Maps

Outfall data was discussed and Angel requested data for each MS4 from Creig Hebdon. Angel will compile the data into one database.

#### SWMP vs. SWMPP

The difference between a Stormwater Management Program (SWMP) and Stormwater Management Program Plan (SWMPP) were discussed. A Stormwater Management Program is the program implemented by the covered entity, where the Stormwater Management Program Plan is an evolving document to track what the regulated municipality has done and what they're going to do.

#### The Year Ahead

Tasks for the year were discussed and coalition members were asked for their input on what tasks they would like to see worked on or completed this year. Members stated that they would like the website to be developed. Angel will be working on the website in June, once the Annual Stormwater Report is submitted.

#### Training

Setting up a Green Infrastructure Tour was further discussed. Coalition members were asked to discuss possible dates and times with their planning board members.

Setting up 4-Hour Contractor Trainings was discussed. Coalition members were asked for dates and locations that would work for their employees.
